Career Objective

To obtain a challenging position where I can effectively contribute my skills, utilize available resources, and gain experience for continuous personal and organizational growth.

Education

Anurag University

Bachelor of Technology (B.Tech), Computer Science and Engineering

Aug 2022-jun 2025

- GPA: 7.08/10

Anubose Institute of Technology, Paloncha

Diploma in Mechanical Engineering

St. Joseph's High School, Kothagudem

Secondary School Certificate (SSC)

Publications

AI-Assisted Telemedicine Kiosk for Rural India (Chatbot System)

Nov-2024

Focus: Chatbot functionality using machine learning to enhance telemedicine.

Key Skills: ML, Java, Python, HTML, CSS, JavaScript

Published in IJIRSET (4 Authors)

Projects

Student Management System (Web App)

- Developed a web-based platform to manage student records and academic workflows efficiently.
- Technologies: HTML, CSS (Frontend); JDBC, Mysql (Backend)

AI-Assisted Telemedicine Kiosk for Rural India

- Engineered a telemedicine kiosk integrating AI to provide remote healthcare services in underserved regions.
- Features include video consultations, intelligent diagnostics, and automated health guidance.
- Technologies: Java, Python, HTML, CSS

Multi-Layered Blockchain Network for Health Records

- Designed a decentralized system for secure health record storage using blockchain architecture.
- Ensured privacy, data integrity, and controlled access for patients and healthcare providers.
- Technologies: Blockchain, Smart Contracts, IPFS, Distributed Ledger Technology (DLT), Cloud Integration

Technologies

Languages: Python, power BI, SQL, Excel, Java, HTML, CSS

Technologies: MongoDB, Machine Learning, Blockchain, IPFS, Smart Contracts

Soft Skills: Team Collaboration, Creative Thinking, Communication, Time Management

Certifications

Java – Infosys SpringBoard

Python – Infosys SpringBoard

Practical HTML and CSS – Infosys SpringBoard
